WELDLOGIC INC.
Forming and Welding Solutions

Welding Solutions for Advanced Manufacturing

ALUCOBOND® FORMING SYSTEM
Up to 16 Foot Length

Three & Four Roll Hydraulic Forming Systems Specifically Designed for Bending Alucobond® Materials in Round or Complex Geometrics

Rugged design and the latest technology enables low skilled operator to produce the highest quality rolled Alucobond shapes.

- Easy set up
- Digital position controller
- Highly repeatable round formed panels
- Heavy duty design
- Drop Arm for easy removal
- Front and rear safety triggers
- 100% hydraulically controlled
- 24 hour operation
- Automation options
- Optional C.N.C. controls

WELDLOGIC INC.
Forming and Welding Solutions

Welding Solutions for Advanced Manufacturing

Up to 16 Foot Length - Three & Four Roll Hydraulic Forming Systems Specifically Designed for Bending Alucobond® Materials in Round or Complex Geometrics

Weldlogic engineering developed and refined a roller specifically designed to form the Alucobond materials in round or complex geometrics.

We offer these Alucobond roll forming systems in 3 roll and 4 roll configurations depending on your specific forming requirements.

Controls are offered in both digital read out and optional C.N.C. for rolling complex shapes and storing bending profiles.

Contact Weldlogic to receive samples or a quotation for a system to meet your specific requirements.
